- TEB Carl Zeige Jona has critical shortages of the following materials:

 Non-Jerrous solds, particularly copper,

 Telephore connection cables,

 agents for the treatment of glass surfaces, particularly

 rollerrou (polishing rouge),

 Fluorepar,

 Cuartz
- 2. Most of these materials were formerly produced from Western sources.

 Illegal producement from the West has now become more difficult and no longer provides the quantities needed. Some of the items mentioned above, however, are being sturgled into the DDN piecemeal in rucksacks.
